**HANDICAPS AND OTHER RATING RELATED RACES
HANDICAP RATING FOR QUALIFICATION**

Before making entries for Handicaps and other Rating Related races, reference must be made to the qualifying Rating Lists published on the Official Handicap Ratings area of the British Horseracing Authority Racing Administration Service Internet site each Tuesday. These ratings will apply for qualification purposes for races closing on the Tuesday of publication through to the following Monday. Amendments to these qualifying ratings will also be published, for information, on the Racing Bulletin area of the Racing Administration Internet site.

HANDICAPS WITH SPLIT ENTRY STAKE FEES

For those Handicap races which have a split entry stake fee dependent on the Handicap rating of the horse, i.e.

- £xx stake if the horse is rated aa or higher, or
- £yy stake if the horse is rated bb or lower with
- £zz extra if the horse is declared to run

The relevant stake fee shall be determined by the Handicap rating used to calculate the weight for each horse entered in the race in question, and not by the published qualifying rating, if any.

The conditions of races appearing in this book are subject to alteration before closing. The final conditions will appear in the relevant Racing Calendar in advance of the closing date.

The total prize funds of races contained in this publication are provisional, due to 2016 HBLB funding and minimum values not yet being defined at the time of going to print.

INTRODUCTION

The Cheltenham Festival in March has been the pinnacle of the Anglo-Irish Jump Programme for many decades, probably since the Second World War. Aintree and Punchestown are great festivals, but Cheltenham prevails. Central to the anticipation and actuality of the event, the number of races won (or not) at Cheltenham from either side of the Irish Sea has become a measure of the health of each nation's jump racing. Over the years, fortunes have fluctuated. However with 13 winners out of 27 at the 2015 Festival (8 out of 14 in the Grade 1 races), there is a feeling that there is now an irresistible surge of quality in Ireland, ready to bowl over the British resistance; that even the outstanding novice winner of the Gold Cup, Coneygree is bound to give way to the might of the Mullins legions into 2016. We shall see.

If Cheltenham is the pinnacle of the season, the Gold Cup and the Champion Hurdle are the pinnacles of Cheltenham, and it is seldom indeed that the former is won by a novice chaser, and not often that the latter goes to a graduate from the previous years' novice hurdle ranks. There is clearly a changing of the guard at the top, with the highest rated steeple chaser of all, Don Cossack (175), only one year out of his novice season. While the top rated experienced horse in each division was only average in relation to previous years, the best novice steeplechasers over their respective distances (Coneygree (172), Vautour (171) and Un de Sceaux (168)) were each the highest rated that we have seen this century (apart only from Sprinter Sacre in his pomp), with these novices as close to the ratings of the top steeplechasers as they have ever been.

Over hurdles, the champion, Faugheen (174) was 5 lbs clear of his nearest rivals, the trio who followed him home in the Champion Hurdle. His rating was historically among the best, and one can scarcely doubt that there is more to come from him.

The other stand-out performance in 2014/15 has to be Many Clouds (167) carrying 11 stone 9 lbs to win the Grand National, emphasising that this really is now a race for the best and most experienced steeplechasers around. In the last six years, only two winners have carried less than 11 stone, and only one has been aged less than 10.

Moving on: fillies represent about 50% of the foals born. That is hardly a controversial statistic. However they represent only 19% of the horses in training over jumps. Is there a pool of potential talent that racing is losing? Fillies and mares that never get to see a racecourse? Is it healthy that many mares head off to the paddocks without being given the opportunity to prove the ability and soundness upon which their produce will depend for success? Is this because it is perceived that the female horse cannot compete on level terms with her male counterpart, and that there are too few opportunities for her to race against her own sex alone?

On the flat, two out of the five classics are confined to fillies. Of our Flat Group 1 races, 10 out of 35 are for fillies and mares alone. Over jumps there have been no Grade 1 races at all until last season. At a time when horses in training and field sizes over jumps have been falling, it seems crazy not to take obvious steps to bring well bred stock onto the racecourse. No-one thinks it odd that fillies race against their own sex at Epsom or Ascot; top class mares' races over jumps should not be seen as an oddity either.

Only in 1984 for hurdlers and in 1986 for chasers respectively (in which years coincidentally Dawn Run won the Champion Hurdle and the Gold Cup) was any allowance granted for jumping mares, and then it was 3 lbs. Since then the allowance has been increased to 5 lbs, and then again to 7 lbs, to move towards the statistical success rates which would be expected from the proportion of runs by mares, as against

the total participation in races where allowances apply. Some would argue that the allowance should be greater still.

However, if mares are perceived to be disadvantaged in racing against their male contemporaries, a greater programme of races confined to mares supervenes that problem. In 2007, weight-for-age Listed and Grade 2 hurdles for mares were first introduced. Listed mares' novice hurdles arrived in 2012, additional Listed mares' bumpers in 2013 and the first non-novice Listed mares' steeplechase in 2015. In the same year, the David Nicholson Mares Hurdle was promoted to Grade 1, and now Cheltenham has resolved to instal a mares' novices hurdle as the 28th race at the Cheltenham Festival, to which the Jump Race Committee has been pleased to award Grade 2 status. We have also introduced two new Listed mares' steeplechases and it is hoped that, in coming years, we shall be able to develop the mares' steeplechase programme further. This season we shall have a total of 25 black type races for mares, compared with 17 in the (smaller) Irish programme.

Leaving aside the fillies and mares, what changes have been made to the Graded and Listed jumps programme for the coming season? The annual applications for upgrading show that there is considerable appetite amongst racecourses for having their races upgraded, notwithstanding the additional prize money which approval will usually demand. The successful applications this years were as follows:

Cheltenham, November. The Shloer Chase, Listed to Grade 2.

Sandown, February. The Jane Seymour Mares' Novice Hurdle, Listed to Grade 2.

Aintree, April. The Mares' Standard Open NH flat race, Listed to Grade 2.

Aintree, April. The Top Novices Hurdle, Grade 2 to Grade 1.

Sandown, April. The Oaksey Chase, Listed to Grade 2.

Then there is the new Mares Novice Hurdle race at Cheltenham to be introduced at Grade 2, and the new Listed Mares' Steeplechases at Carlisle in November and Huntingdon in February; and also a couple of moves, to improve the spread of opportunities: the Relkeel Hurdle (Grade 2) goes from December to Cheltenham's New Year meeting; and the Future Stars Intermediate Steeplechase (Listed) at Sandown goes the other way, from December to November 8th.

There were a number of unsuccessful applications for upgrading. The Committee has to be conscious of the risk of over-supply of opportunities within the Pattern which is, after all, designed to bring the best horses together in competition rather than to allow them to avoid each other for easy pickings. In general the Pattern is in good health, and while warning letters had to be sent to several courses about the drab performance of a few races, no downgrades had to be imposed this year.

Meanwhile the 2015 Jump Racing Review is under way. This is a fundamental review of all aspects of jump racing, not merely the racing programme, but encompassing ownership, promotion of the sport, geography and, not least, welfare, under examination from a large group with widespread knowledge and universal commitment to the sport. The outcome will be awaited with interest as the year progresses.

ANGLO-IRISH JUMP CLASSIFICATIONS 2014-2015

This is the sixteenth full Anglo-Irish Jump Classification. It classifies the best steeplechasers and hurdlers that were trained in either Britain or Ireland during the 2014-2015 season. It is not a handicap but a retrospective measurement of best sustainable performances during the recent season.

The classifications are for all chasers and hurdlers down to a rating of 140. The steeplechasers are divided into distance categories of 2 miles, 2.5 miles and 3 miles plus and are included in the list in which the handicappers believe they have put up their best performance. Champions may be included twice if they have put up their best performance in a different category.

The hurdle categories are similar except that they are divided into two distances of 2 miles and 2.5 miles plus.

There is a separate classification identifying Novices rated 140 and above. Juvenile Hurlers are included in the Novice section.

Horses trained in Ireland have * appended after their name. Horses trained in France have ** appended after their name. Mares are in *italics*.

The ratings were agreed and compiled by;

GROUND RULES FOR THE JUMP PATTERN

1. INTRODUCTION

- a) The Jump Pattern will be administered by the Jump Racing Committee of the British Horseracing Authority. The Secretariat will be provided by the British Horseracing Authority's Racing Department.
- b) The Jump Racing Committee will aim to achieve a balance of Grade 1, Grade 2 and non-handicap Listed races within the Pattern and Listed race structure, so that there are more Grade 2 races than Grade 1, and that the total number of Grade 2 and non-handicap Listed races should be at least double the total number of Grade 1 races.
- c) All Jump races within Great Britain will be eligible to apply for Pattern status provided they comply with the criteria set out below.

2. GENERAL RULES FOR RACES IN THE JUMP PATTERN

Every Jump Pattern and Listed race must conform to the following rules:

- a) It should have no indigenous conditions.
- b) Grade 1 and 2 races must have a permanent element in the title, to which a prefix or suffix may be added.
- c) It must justify its grading by the quality of its runners, assessed primarily by the ratings of the best four horses, over a rolling three-year period.
- d) The parameters below are the standard that a race should achieve to justify Pattern or Listed status.

Pattern Races

A Pattern or Listed Race rating is the average of the annual ratings achieved by a race over a three-year period. The annual rating is the average of the end of season handicap ratings of the four highest rated horses in the race. If a race attracts less than four runners, then a rating of 100 will be inserted to make up the fourth (and where necessary third) rating. Any horse which appears in the four highest rated runners in a race that has a rating below 100 will have that rating inflated to 100.

This is to avoid penalising a race for attracting horses that, in their absence, would have resulted in a higher race rating. Where a race has been abandoned after declaration stage, the annual rating is calculated by taking an average of the four highest rated declarations. Should the race have been abandoned before declaration stage, no annual rating will be generated. In addition, the actual weight allowance received by any fillies and mares running in an open competition Jump Pattern or Listed race will be added to their official ratings for the sole purpose of calculating a Pattern or Listed Race rating. The parameters of Mares' races are set at seven pounds lower than open competition Jump Pattern and Listed races because Mares in open competition receive a seven pound allowance which needs to be accounted for to compare races on a level basis.

- e) Grade 1 races must be run with no penalties or allowances other than a sex allowance. Grade 2 races must be weight-for-age races or limited handicaps. Grade 3 races must be open handicaps with no rating band restriction.

(Note: A Pattern race below Grade 1 which is open only to first and second season horses may have a restriction of rating placed within the race conditions, by permission of the Committee).

3. CHANGES TO THE JUMP PATTERN

Any changes to races within the Jump Pattern must be agreed by the Jump Racing Committee and subsequently approved by the Board of the British Horseracing Authority. All proposed changes for the forthcoming season must be submitted to the Racing Department by the end of May. No applications will be considered after this date, unless otherwise directed by the Board in exceptional circumstances. For the purposes of the Ground Rules, changes are defined as:

- a) Any change of a Grade of a Pattern race.
- b) Any change to the conditions or date of a Pattern race.
- c) Any change to the permanent element in the name of a Pattern race.
- d) A change of more than 50% in the total value of a Grade 2 or 3 Pattern race.
- e) The introduction of a new Pattern race.
- f) The deletion of an existing Pattern race.

4. RULES GOVERNING JUMP PATTERN AND LISTED RACE CHANGES

- (a) The following rules shall apply to the upgrading of races by Grade and admission of new races to the Pattern, and shall be waived only in exceptional circumstances.
 - (i) To qualify for upgrading or admission to the Pattern, a race must have been run with similar conditions and comparable prize money, and on approximately the same date, for the last three years at least.
 - (ii) Promotion or admission of a race must be justified by the quality of the runners, assessed by the ratings of the best four horses, in the last three years at least. The criteria shall be the standard ratings for Pattern Grades set out in paragraph 2(d).

- (iii) No race shall be eligible for promotion to Grade 1 or 2 if this would involve a clash liable to have adverse effects on an existing Grade 1 or 2 race.
 - (iv) A new race satisfying the requirements for admission to the Pattern must be introduced as a Grade 2 race (if a weight-for-age event or limited handicap) or a Grade 3 race (if an open handicap).
- (b) The following rules shall apply to the downgrading/deletion of Pattern and Listed races:-
- (i) At the Jump Racing Committee's end of season meeting, any race will be subject to downgrading/deletion if its Pattern or Listed Race rating (three-year average of the annual ratings) is below the required parameter.
 - (ii) If the Committee decides that a race should be downgraded or deleted, the relevant racecourse will be notified and offered one further running of the race in an attempt to rectify its failings. However, the Committee must be satisfied that the racecourse in question can devise effective measures to encourage runners of the required quality.
 - (iii) If the Committee decides not to downgrade or delete Pattern or Listed status from a race which has achieved a Race rating below the required parameter, the racecourse concerned will be notified in writing of the race's under-performance and of the Committee's concern. The Committee will expect the racecourse to take measures that will attempt to boost the rating of the race.
- (c) In assessing upgrades, admissions, downgrades or deletions of races, the Jump Racing Committee will not take decisions based solely on ratings criteria. Other factors may additionally be taken into account, including:-
- The average field size attracted by the race.
 - The effect on the shape of the British Jump Pattern as a whole, especially geographical considerations.
