The figures shown in the table for each year are an average of the 12 monthly figures produced. As the figures are rounded to the nearest whole number, the total may not equal the sum of the individual parts.

TABLE 3

Numbers of Owners With Horses in Training by Type of Ownership

The numbers of owners with horses in training, categorised by type of ownership. The Inclusive Figures allow for duplication of a single owner in more than one of the categories, depending on the types of ownership involvement, and therefore show the total number of different owners involved in each category. The Exclusive Figures show a more precise breakdown of ownership types by which each owner with horses in training is categorised in only one of the categories. The sum of these categories is, therefore, equal to the number of different owners with horses in training as categorised in Table B2.

The figures shown in the table for each year are an average of the 12 monthly figures produced. As the figures are rounded to the nearest whole number, the total may not equal the sum of the individual parts.

TABLE 2

Horses in Training by Type and Age of Horse

An analysis of the number of horses in training taken from Trainers Returns and broken down into: Flat-Only horses, Jump-Only horses, Dual-Purpose horses and Hunters' Steeple Chasers. Within each of these sub-sections, the horse population is broken down by age group.

The figures shown in the table for each year are an average of the 12 monthly figures produced. As the figures are rounded to the nearest whole number, the total may not equal the sum of the individual parts.

For Hunter Chasers, only a total figure is shown. This is the highest number recorded during the year, typically the figure for May or June.

TABLE 3

Horses in Training by Type of Ownership

An analysis of the number of horses in training taken from Trainers Returns giving a breakdown of the number of horses in training by ownership type and an analysis of the horses owned jointly.

The figures shown in the table for each year are an average of the 12 monthly figures produced. As the figures are rounded to the nearest whole number, the total may not equal the sum of the individual parts.

TABLE 4

TABLE 5

Flat Racing

Number of Different Horses Which Ran – by Age

An analysis of the number of different horses which ran on the Flat under Rules in each calendar year as 2 years old, 3 years old, 4 years old and over and in total.

Average Number of Runs per Horse that Ran

The number of individual different horses that ran on the Flat divided into the total number of Flat runners for each year.

Number of Different Winners

The number of different horses which won a Flat race under Rules in the calendar year.

Number of Races Divided Overnight

The number of different Flat races that were divided under the Orders and Rules of Racing because the number of horses declared to run exceeded the safety factor/maximum figure or field size limit of the race concerned or, in exceptional circumstances, to provide a sufficient number of races on the day due to other races on the card being abandoned.

Number of Horses Balloted Out or Eliminated

The number of horses taken out of a Flat race under the Orders and Rules of Racing because the number left in at the declaration to run stage exceeded the safety factor/maximum figure or field size limit. These figures are for ALL Flat races, including abandoned races, so will not necessarily equate to the total number of eliminations in table D6, which is only for races that actually took place.

Jump Racing**Number of Different Horses Which Ran**

The total number of different horses which ran under Jump Rules in each calendar year.

Average Number of Runs per Horse that Ran

The number of individual different horses that ran under Jump Rules divided into the total number of Jump runners for each calendar year.

Number of Different Winners

The number of different horses that won a Jump race under Rules in the calendar year.

Number of Races Divided Overnight

The number of different Jump races that were divided under the Orders and Rules of Racing because the number of horses declared to run exceeded the safety factor/maximum figure or field size limit of the race concerned or, in exceptional circumstances, to provide a sufficient number of races on the day due to other races on the card being abandoned.

Number of Horses Balloted Out or Eliminated

The number of horses taken out of a Jump race under the Orders and Rules of Racing because the number left in at the declaration to run stage exceeded the safety factor/maximum figure or field size limit. These figures are for ALL Jump races, including abandoned races, so will not necessarily equate to the total number of eliminations in tables D7, D8 and D9, which are only for races that actually took place.

TABLE 6**Races, Entries, Runners, Eliminations and Prize Money by Type of Race – Flat**
