# INTRODUCTION

The balance of power between Great Britain and Ireland continues to stir the imagination, with both islands getting the same number of winners past the post at Cheltenham in 2016, but with eight of the fourteen Grade 1s going to Ireland, just as last year; and Ireland providing the winner of the Grand National (though Britain provided the majority of the other winners at Aintree).

In terms of the ratings of the best horses, while 2014/15 had been a year when the novices came to the fore, 2015/16 saw the supremacy of the established order. Don Cossack (177) was for the second year nominated as the top steeplechaser, by the narrowest margin, ahead of Cue Card and Vautour (both 176) with the redoubtable Sprinter Sacre (175) just behind; these four were clear of the opposition. Only Douvan (169) really shone among the novice chasers, a full 10lbs ahead of any of the others, from whom a generous slice of improvement will be required if they are to trouble the old order next season.

Over hurdles, Faugheen (176) and Thistlecrack (174) were way in front in their respective spheres, with only Annie Power bridging the gap of nearly a stone to the next best. As with the chasers, one novice hurdler, Altior (160), was well ahead of his fellows, but there is plenty of space at the top for fast improvers to fill.

What a classy race the Grand National has become! This year you needed to be rated 145 to get a run, and many with lower ratings were eliminated. Twenty years ago, a mere four of the runners went into the race with a rating of 145 or more! Unusually, this year the race was won by a novice, Rule the World (159), sadly now retired. At the time, there was talk of "win and you're in" races or protection for previous winners. However, if such horses could not get into the race on their ratings, the obvious consequence of any such scheme would be to deny a run to a horse with higher quality recent performances.

The introduction to last year's Pattern book catalogued the steps which had been taken over the last decade to develop a more comprehensive programme for the female 50% of the thoroughbred stock. So how are they getting on? Mares still represent only a little over 20% of the horses which race in Britain under the Rules of Jump Racing, but development of the mares' programme continues. 2016 saw the first running of the Grade 2 Mares' Novices Hurdle at the Cheltenham Festival, appropriately named after Dawn Run. The race justified expectations, with 16 runners and an annual race rating 10lbs above its required parameter.

Attention this time has turned to the steeplechasers. All four Listed mares' chases last season achieved their parameters with something to spare, and this season that programme will be filled out with a further four Listed races, giving a spread of distances and geography, two for novices and two for open competition. These are as follows:

- 3 November, Market Rasen, 3 miles
- 9 November, Bangor-on-Dee, 2 miles (novices)
- 8 December, Warwick, 2 miles 4 furlongs (novices)
- 24 January, Leicester, 2 miles 6½ furlongs (2m 7½ furlongs from 2018)

In addition, the EBF and TBA Mares' National Hunt Novices' Hurdle Race Final at Newbury on 2 April has been upgraded from Listed to Grade 2.

In terms of quality, the programme of Jump Pattern and Listed races is in good heart; nearly all of the races meet the standard demanded by the Annual Race Rating and Average Race Rating protocols, outlined in the Ground Rules set out at the end of this book. However

the parameters upon which black type races are judged are constantly under review; call it quality control. It has become apparent that the required levels are too low for non-novice races below Grade 1. The Grade 1 parameter was increased many years ago, and the novice parameters went up in 2014; now the remaining race types should follow suit. Failure to make this change would be to award the badge of quality where it is sometimes not justified; to stifle the opportunity for ambitious racecourses to enhance their programmes, while only moderately successful races elsewhere stand in their way.

Accordingly, at the end of the current season, those non-novice races will be judged against a benchmark 5lbs higher than previously. There were 103 such Grade 2 and 3 and Listed races in the programme in 2015/16. Only three of them failed to match the current three year average standard. If the new standard had been in place, 19 would have been in question, still leaving 84 races to pass the test, many by a considerable margin. However, questions must henceforth be asked as to whether the more modest contests are meeting the need of a pattern of top class contests; and consequently whether they should be downgraded or disappear from this book; or be replaced by similar races which have been doing better at attracting the best horses.

In addition to the changes to the mares' programme, two other races have been upgraded, after careful sifting by the Pattern Committee:

The National Hunt Steeplechase, Cheltenham, March, from Listed to Grade 2 and the Select Hurdle, Sandown, April, from Listed to Grade 2.

Two more have been introduced as Listed races:

The Neptune sponsored Novice Hurdle at Cheltenham on New Year's Day and the EBF sponsored National Hunt Novice Hurdle, at Perth in April.

The number of applications for upgrade continues to show the value of the Pattern to those racecourses which are willing to guarantee the additional prize money to enhance their programmes. At the time of writing, the required minimum values for Pattern and Listed prize funds for 2016/17 are as follows:

**For steeplechases:**

Grade 1	(open)	£100,000	(novice)	£45,000
Grade 2	(open)	£50,000	(novice)	£32,000
Grade 3	(open)	£40,000		
Listed	(open)	£27,500	(novice)	£22,500

**And for hurdles and National Hunt flat races (juvenile the same as novice):**

Grade 1	(open)	£75,000	(novice)	£40,000	(NHF)	£25,000
Grade 2	(open)	£40,000	(novice)	£30,000	(NHF)	£20,000
Grade 3	(open)	£35,000	(novice)	£35,000		
Listed	(open)	£22,000	(novice)	£20,000	(NHF)	£20,000

Happily, many of these races are run at well above the minimum, often with the aid of generous sponsorship. Long may that continue.

## ANGLO-IRISH JUMP CLASSIFICATIONS 2015-2016

This is the seventeenth full Anglo-Irish Jump Classification. It classifies the best steeplechasers and hurdlers that were trained in either Britain or Ireland during the 2015-2016 season, or in France if that performance was achieved in Britain or Ireland. It is not a handicap but a retrospective measurement of best sustainable performances during the recent season so there may be differences from current handicap marks.

The classifications are for all chasers and hurdlers down to a rating of 140. The steeplechasers are divided into distance categories of 2 miles to 2 miles 2.5 furlongs, 2 miles 3 furlongs to 2 miles 6.5 furlongs and 2 miles 7 furlongs plus. They are included in the list in which the handicappers believe they have put up their best performance. Champions (Vautour) are included twice if they have put up their best performance in more than one category.

The hurdle categories are similar except that they are divided into two distances of 2 miles to 2 miles 2.5 furlongs and 2 miles 3 furlongs plus.

There is a separate classification identifying Novices rated 140 and above. Juvenile Hurdlers are included in the Novice section.

Horses trained in Ireland have \* appended after their name. Horses trained in France but have a performance at 140+ in Great Britain or Ireland have \*\* appended after their name. Mares are in *italics*.

The ratings were agreed and compiled by;

Phillip Smith	Great Britain
Noel O'Brien	Ireland
David Dickinson	Great Britain
Martin Greenwood	Great Britain
Andrew Shaw	Ireland
Mark Olley	Great Britain
Chris Nash	Great Britain

# GROUND RULES FOR THE JUMP PATTERN

## 1. INTRODUCTION

- a) The Jump Pattern will be administered by the Jump Racing Committee of the British Horseracing Authority. The Secretariat will be provided by the British Horseracing Authority's Racing Department.
- b) The Jump Racing Committee will aim to achieve a balance of Grade 1, Grade 2 and non-handicap Listed races within the Pattern and Listed race structure, so that there are more Grade 2 races than Grade 1, and that the total number of Grade 2 and non-handicap Listed races should be at least double the total number of Grade 1 races.
- c) All Jump races within Great Britain will be eligible to apply for Pattern status provided they comply with the criteria set out below.

## 2. GENERAL RULES FOR RACES IN THE JUMP PATTERN

Every Jump Pattern and Listed race must conform to the following rules:

- a) It should have no indigenous conditions.
- b) Grade 1 and 2 races must have a permanent element in the title, to which a prefix or suffix may be added.
- c) It must justify its grading by the quality of its runners, assessed primarily by the ratings of the best four horses, over a rolling three-year period.
- d) The parameters below are the standard that a race should achieve to justify Pattern or Listed status.

### Pattern Races

Grade	Hurdle	Open		NHF	Mares' Races		
		Chase			Hurdle	Chase	NHF
Grade 1	155	155			148	148	
Grade 1 (Novice)	140	140	130		133	133	n/a
Grade 2	150	150			143	143	
Grade 2 (Novice)	135	135	125		128	128	118
Grade 3	145	145			138	138	
Grade 3 (Novice)	130	n/a	n/a		123	n/a	n/a

### Listed Races

Grade	Hurdle	Open		NHF	Mares' Races		
		Chase			Hurdle	Chase	NHF
Listed	135	135			128	128	
Listed (Novice)	125	125	115		118	118	108

A Pattern or Listed Race rating is the average of the annual ratings achieved by a race over a three-year period. The annual rating is the average of the end of season handicap ratings of the four highest rated horses in the race. If a race attracts less than four runners, then a rating of 100 will be inserted to make up the fourth (and where necessary third) rating. Any horse which appears in the four highest rated runners in a race that has a rating below 100 will have that rating inflated to 100.

This is to avoid penalising a race for attracting horses that, in their absence, would have resulted in a higher race rating. Where a race has been abandoned after declaration stage, the annual rating is calculated by taking an average of the four highest rated declarations. Should the race have been abandoned before declaration stage, no annual rating will be generated. In addition, the actual weight allowance received by any fillies and mares running in an open competition Jump Pattern or Listed race will be added to their official ratings for the sole purpose of calculating a Pattern or Listed Race rating. The parameters of Mares' races are set at seven pounds lower than open competition Jump Pattern and Listed races because Mares in open competition receive a seven pound allowance which needs to be accounted for to compare races on a level basis.

- e) Grade 1 races must be run with no penalties or allowances other than a sex allowance. Grade 2 races must be weight-for-age races or limited handicaps. Grade 3 races must be open handicaps with no rating band restriction.

*(Note: A Pattern race below Grade 1 which is open only to first and second season horses may have a restriction of rating placed within the race conditions, by permission of the Committee).*

### **3. CHANGES TO THE JUMP PATTERN**

Any changes to races within the Jump Pattern must be agreed by the Jump Racing Committee and subsequently approved by the Board of the British Horseracing Authority. All proposed changes for the forthcoming season must be submitted to the Racing Department by the end of May. No applications will be considered after this date, unless otherwise directed by the Board in exceptional circumstances. For the purposes of the Ground Rules, changes are defined as:

- a) Any change of a Grade of a Pattern race.
- b) Any change to the conditions or date of a Pattern race.
- c) Any change to the permanent element in the name of a Pattern race.
- d) A change of more than 50% in the total value of a Grade 2 or 3 Pattern race.
- e) The introduction of a new Pattern race.
- f) The deletion of an existing Pattern race.

### **4. RULES GOVERNING JUMP PATTERN AND LISTED RACE CHANGES**

- (a) The following rules shall apply to the upgrading of races by Grade and admission of new races to the Pattern, and shall be waived only in exceptional circumstances.
  - (i) To qualify for upgrading or admission to the Pattern, a race must have been run with similar conditions and comparable prize money, and on approximately the same date, for the last three years at least.
  - (ii) Promotion or admission of a race must be justified by the quality of the runners, assessed by the ratings of the best four horses, in the last three years at least. The criteria shall be the standard ratings for Pattern Grades set out in paragraph 2(d).

- (iii) No race shall be eligible for promotion to Grade 1 or 2 if this would involve a clash liable to have adverse effects on an existing Grade 1 or 2 race.
  - (iv) A new race satisfying the requirements for admission to the Pattern must be introduced as a Grade 2 race (if a weight-for-age event or limited handicap) or a Grade 3 race (if an open handicap).
- (b) The following rules shall apply to the downgrading/deletion of Pattern and Listed races:-
- (i) At the Jump Racing Committee's end of season meeting, any race will be subject to downgrading/deletion if its Pattern or Listed Race rating (three-year average of the annual ratings) is below the required parameter.
  - (ii) If the Committee decides that a race should be downgraded or deleted, the relevant racecourse will be notified and offered one further running of the race in an attempt to rectify its failings. However, the Committee must be satisfied that the racecourse in question can devise effective measures to encourage runners of the required quality.
  - (iii) If the Committee decides not to downgrade or delete Pattern or Listed status from a race which has achieved a Race rating below the required parameter, the racecourse concerned will be notified in writing of the race's under-performance and of the Committee's concern. The Committee will expect the racecourse to take measures that will attempt to boost the rating of the race.
- (c) In assessing upgrades, admissions, downgrades or deletions of races, the Jump Racing Committee will not take decisions based solely on ratings criteria. Other factors may additionally be taken into account, including:-
- The average field size attracted by the race.
  - The effect on the shape of the British Jump Pattern as a whole, especially geographical considerations.
